

Join us for a conversation with other Greene County Seniors

Skip the small talk and make more meaningful connections

We are trying something new, and invite you to join us for a Big Talk.

Big Talk is a communication approach for skipping small talk to make genuine, meaningful connections with those around you – loved ones, colleagues, classmates, teammates, community members, or even total strangers. By prompting deep, open-ended questions, Big Talk conversations allow people to share life stories, lessons, and experiences, enriching relationships profoundly.

Big Talk is a global movement dedicated to combating loneliness, nurturing community, and fostering curiosity and empathy worldwide.

Big Talk fights the loneliness epidemic by promoting genuine interactions, empathy, community building, and storytelling.
